

MAY NEWSLETTER

Young Children's Primary

Dear Parents,

April was a month full of fun! The children enjoyed learning about farm animals and their unique sounds. They even milked a pretend cow! We also had the exciting experience of seeing the full life cycle of the butterfly: starting with an egg, then turning to a caterpillar, then becoming a chrysalis, and finally a butterfly emerging.

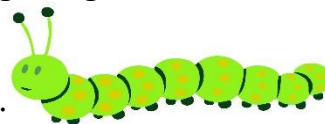

Thank you for your support and participation in our International Day event!

May's Theme: Nature/Spring (butterflies, insects, flowers, reptiles)

Language: The children will continue learning letter sounds and recognizing the first letter of their own name.

Math: We will continue working with numbers and geometric shapes.

Science: This month, the children will learn about the life cycle of the flower, the life cycle of a frog, and the life cycle of different insects.

Art: The children will glue together a cutout of a bee. Since this month we are celebrating both Mother's Day and Father's Day, we are going to make a special gift for our moms and dads.

The children will get to plant flower seeds and watch it germinate and turn into a flower!

Reminders:

- **Muffins with Mom:** May 10th @ 8:30 - 9:30 a.m.
- **Donuts with Dad:** May 17th @ 8:30 - 9:30 a.m.
